OBJECTIVE

As a sophomore Software Engineering student with a strong foundation in programming and problem-solving, I aim to leverage my skills in software development to build scalable, efficient, and high-performance applications. Passionate about solving complex technical challenges, I am eager to collaborate with dynamic teams and contribute to innovative software projects while expanding my expertise in various software engineering practices and technologies.

WORK EXPERIENCE

Intern – Artificial Intelligence, Software Engineering & Cyber Security
Cyshield | **08/2024 – 08/2024**

- Contributed to the development of both **front-end** and **back-end** features of a web application, gaining hands-on experience with a range of technologies.
- Assisted in data collection and analysis for a big data project, helping improve overall data processing efficiency.
- Gained foundational experience with business intelligence (**BI**) tools and contributed to preparing insightful reports for team discussions.
- Participated in penetration testing efforts, identifying and addressing web vulnerabilities like **SQL** injection, **XSS**, **CSRF**, and **IDOR** enhancing the overall security of applications.

EDUCATION

Ain Shams University

Bachelor's Degree in Computer Science
Major | **Software Engineering**

CGPA**: 3.5**
Expected graduation: June 2027

PROJECTS

- **Weather Forecast**
- **Transactions Dashboard**
- **Mealify**
- **Game Hub**
- **Bazel**
- **eCommerce**

SKILLS

Technical:
- Front-End developer   - Tailwind CSS
- HTML   - Material UI
- CSS   - jQuery
- OOP   - React.js
- JavaScript   - SQL
- Bootstrap   - TypeScript
- C++   - git/github
- Java   - Python

Soft Skills
- English: upper Intermediate
- Problem Solving
- Attention To Details
- Adaptability
- Team Work
- Time Management
